

G136 - ENVIRONMENTAL DATA SCIENCE

WEEK 1

TODAY'S AGENDA

- ▶ Introductions
 - ▶ where are you? what are you into? what's keeping you busy these days?
- ▶ A quick overview of the class Syllabus & class Slack
- ▶ Background Info
- ▶ Intro to the Tools we are going to use (Github, JupyterHub)
- ▶ Explanation of how we hope the class will work
- ▶ Your assignment for the coming week
- ▶ Discussion

WHAT DATA SCIENCE IS:

“DATA SCIENTIST (N.):
PERSON WHO IS BETTER AT
STATISTICS THAN ANY
SOFTWARE ENGINEER AND
BETTER AT SOFTWARE
ENGINEERING THAN ANY
STATISTICIAN.”

**Josh Wills, Director of Data
Engineering at Slack**

WHAT DATA SCIENCE DOES:

“ENVIRONMENTAL DATA
SCIENTIST (N.): PERSON WHO IS
BETTER AT COMPUTATIONS THAN
ANY APPLIED ENVIRONMENTAL
SCIENTIST AND BETTER AT
ENVIRONMENTAL PROBLEM
SOLVING THAN ANY COMPUTER
SCIENTIST.”

WHAT TOOLS DO DATA SCIENTISTS USE?

INTRO TO THE TOOLS WE ARE GOING TO USE (GITHUB, JUPYTERHUB)

- ▶ <https://g136.lsit.ucsb.edu/hub/login>
- ▶ Getting our class repository:
 - ▶ <https://github.com/environmental-data-science/envdatasci>
- ▶ Adding class repository to your Jupyter Instance
 - ▶ `git clone`
 - ▶ `pip install`

The logo features the word "jupyterhub" in a dark grey sans-serif font. The "j" is lowercase, while "upyterhub" is lowercase. The text is centered within a white rectangular area. Above the text, there is a stylized orange arc that forms a partial circle, with two small grey dots positioned above and below it. A thin grey elliptical line orbits the central text and arc.

jupyterhub

A multi-user deployment of the notebook designed for companies,
classrooms and research labs
